SELF-MOTIVATED • FLEXIBLE AND ADAPTABLE • FORWARD-THINKING
SOFTWARE DEVELOPMENT ENGINEER

ABOUT MYSELF

Versatile and resilient individual commended for first-rate collaboration, organizational and time management abilities. A resourceful and adaptable person seeking to contribute solutions and provide analytical expertise. A second-year bachelor's student seeking an intern position and making further strides in his career while working toward a Computer Science degree.

Work Experience

- **Azerbaijani Service and Assessment Network (ASAN) Baku, Azerbaijan** <https://www.e-gov.az/>
Intern at ASAN June 2023 - August 2023
 - Improved source code performance by debugging and optimizing existing functions, enhancing the system efficiency of the document workflow platform.
 - Accelerated project timelines by completing assigned tasks under the mentorship of a lead software developer.
 - Gained hands-on experience in software development (frontend development and backend) with the use of Python and the Django library by directly collaborating with my peer software developers while being supervised by a lead software developer.

Education

- **Constructor University Bremen, Germany** <https://constructor.university/>
Bachelor of Science in Computer Science September 2022 – Present
The program integrates theoretical content while also demonstrating its use in industry and research moreover it is apprised in the latest developments in the fundamental methods and techniques. It is also aimed at fostering collaborative efforts to organize workflows in complex development efforts. The studies align with national international guidelines set by the Gesellschaft für Informatik and ACM/IEEE respectively.
 - **Machine Learning Project for a Hackathon** November 2024 - December 2024
Collaborated with peers in a Machine Learning Hackathon held at Constructor University from November 29th to 1st of December. Extracted data and analyzed it by constructing a learning machine to find patterns.
 - **QR Code Web App for Restaurants** September 2024 – December 2024
Worked and implemented a web app on the premise of QR codes and automatization in a restaurant using mainly Python, SQL and HTML/CSS for the front end. The primary goal of the project was to assist restaurants with order-taking and other logistics.
 - **Weekly Assignments from Courses in Operating Systems, Algorithms and Data Structures, Programming in C/C++, and Introduction to Computer Science** Sep 2022 - Present
Fulfilled the designated weekly assignments as part of a consistent development of my software development skills including Basic to Intermediate C and C++ programming, Data Structure analysis and manipulation, Multi-threading, and Synchronization projects, and Inter-process communication (IPC) extensive exercises.
- **Studied core academic computer science courses and advanced mathematics courses:**
 - *Programming in C and C++, Algorithms and Data Structures, Introduction to Computer Science, Introduction to Robotics and Intelligent Systems, Operating Systems, Databases and Web Services, Computer Networks, Legal and Ethical Aspects of Computer, Calculus and Elements of Linear Algebra, Probability and Random Processes*
- **Constructor University Bremen, Germany** <https://constructor.university/>
International Foundation Year

Focused on developing the necessary skills to have a gentler transition to a university environment and building a foundation of knowledge for the bachelor's degree. Engaged in a structured peer-to-peer learning activity, exchanging ideas and experiences they had in their education journey. Collaborated with the faculty in common projects and out-of-class activities including Vendor Presentation preparations that were about existing and emerging technologies, group assignments and presentations on German history, political structure and environment, culture and other social aspects

- **Azerbaijan Diplomatic Academy (ADA) High School, Baku, Azerbaijan** <https://www.ada.edu.az/> September 2019 – June 2021
High school
Graduated with high grades, achieving highest scores in Mathematics and other technical subjects which laid a strong foundation to apply into Constructor University at Bremen, Germany. Made further efforts in the study of English and Mathematics and partook in standardized tests SATS with a score of 1400 IELTS with a score of 7.5.
- **STEP IT Academy, Baku, Azerbaijan** <https://itstep.az/> September 2017 – June 2021
Gained in-depth knowledge of different disciplines across IT including software development (frontend and backend), database management, graphical modelling and design. Graduated from the academy with one of the highest grades. For group assignments and final assessments, often took on leadership roles ensured project completion and delivered the final showcase.

Language Skills

- **Azerbaijani**, C2 - native or bilingual Proficiency
- **German**, A2 – Lower-intermediate (University Courses throughout my studies)
- **English**, C2 – native or bilingual Proficiency (**IELTS Band 7.5**)
- **Russian**, C2 - native or bilingual Proficiency

Technical skills

- *Skilled in Procedural and Object-Oriented Programming Languages including: C/C++, Java*
- *Experienced in Scripting Languages including: Python, JavaScript, specifically focused on Django and Flask frameworks*
- *Generally competent at query languages' structure and specifically trained with MySQL*
- *Linux Administration Basics in CentOS and RHEL (Linux Foundation Courses | Ingress Academy)*
- *Microsoft Office Advance User*

Extracurricular Activities

- **Attended local and international Model United Nation conferences as a delegate and chair**
- **Undergraduate Student Government**
Academic Affairs Committee Member September 2024 - Present
Discussed potential restructuring of some of the university courses and policies, approving courses and academic staff and curriculum changes. Acting as the middle-ground between the faculty and the students and having a direct impact on the academic experiences of the students.
- **Member of Society of Natural Sciences** September 2024 - Present
- **Peer Mentor for my College** September 2024 - Present
Helped the first year students get settled in the University. Held tours around the campus and in the city of Bremen as part of my voluntary position. Was Conjointly responsible for a group of first-year students throughout the semester and was the first point of contact with the challenges of moving abroad and living in Germany. Oversaw one of the biggest on-campus events (Constructor Olympics) as an organizer.
- **Kickboxing Club Member** September 2024 – Present

Interests

- Interested in Literature and History and Politics, Participate in Football, Play Guitar, Enjoy Swimming.
